Electric Bathroom Radiator line drawing

Description:

- Bathroom radiator made in Olycale® stone : a natural stone from Pyrenees mountain, crushed then specifically restructured to allow heat to be emitted with a very high efficiency
 - Hand finished by designer at factory
 - Superior radiant heat while at the same time providing the luxury of warm, dry towels and bathrobes
 - The CINIER electric models come with an AUBE/HONEYWELL electronic programmable thermostat 120V-16.7A, ref. TH115-A-120S, made in Canada and UL/CSA certified.
 - All electric Cinier references come with a UL certified power supply cable (max. 3.28yd /3m) to connect the unit to the electronic thermostat.
 - For use on 110/120 Volt AC 60Hz
- All electrical connections must be carried out by a licensed electrician in accordance with LOCAL ELECTRICAL CODES OR NATIONAL CODES.

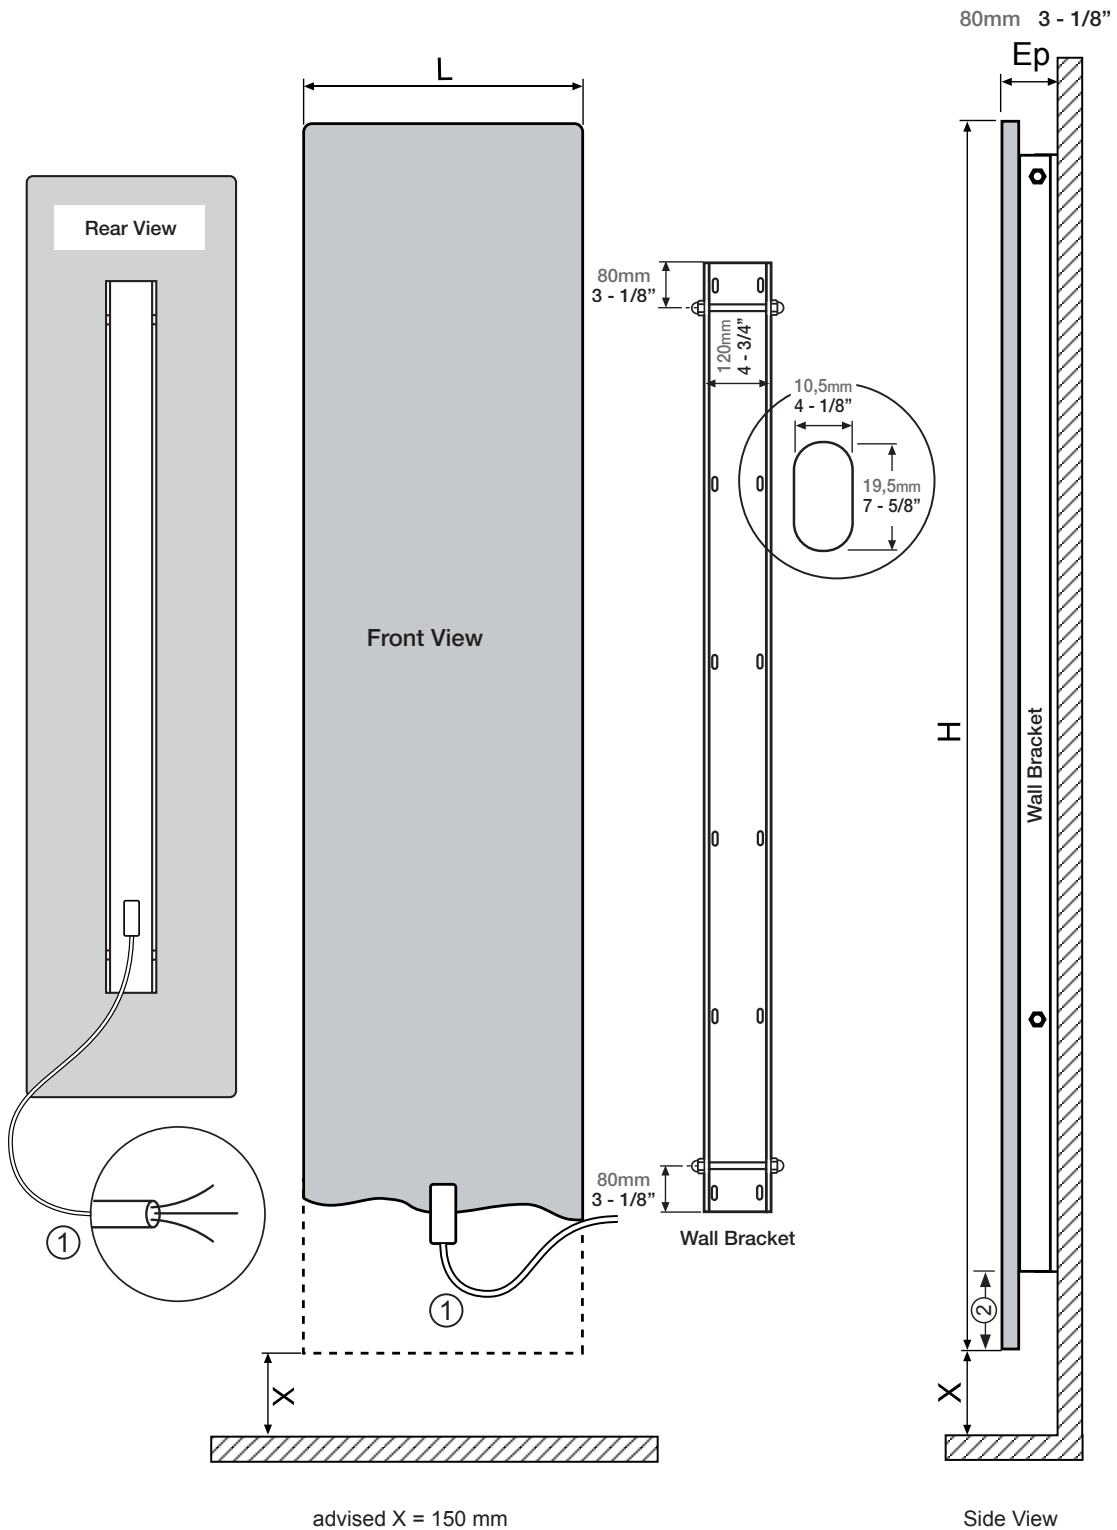

Clarification:

- Variations in color, shade, texture and overall appearance should be expected and understood.
- A 100% eco-friendly water-based varnish protects the finish.
- To clean the panel, use a slightly humid soft cloth or sponge, warm water and natural soap or a mild alkaline-free dish detergent.
